Article 89(2) (a) of Delegated Regulation (EU) No. 2017/565 and Article 11(2)(a) of Delegated Regulation (EU) No. 2017/567	Price List Year 2026 Preliminary note: Deutsche Börse (“DBAG”) acts as both a manufacturer and a distributor of market data. DBAG distributes market data on behalf and for the accounts of Börse München (operating MIC: XMUN) and Bayerische Börse AG respectively for the segment MICs MUNA and MUNB. I. Fee Model of the Market Data Dissemination Agreement 1. Differentiation based on Usage Types Licenses are granted for the following usage types: (a) Display Information Usage; (b) Non-Display Information Usage; (c) Onward Dissemination. 2. Differentiation based on Customer Categories Secondly, license fees depend on the applicable Customer Category licensee has chosen under the relevant usage license. 3. Unit of Count vs. Flat Fee Thirdly, the specific fee to be paid depends either on the concrete usage (measurement via units of count) or shall be paid as a lumpsum amount. Discounts may be granted as stipulated in the relevant license agreement (Market Data Dissemination Agreement or Non-Display Agreement). II. Non-Display Agreement Licensees who are not interested in other usage types than the Non-Display Information Usage only need the Non-Display Agreement. With respect to the applicable fee model, the same logic applies as illustrated above with the deviation that only the usage type Non-Display Information Usage is of relevance.
